Q1 FY16 financial performance detail

-
- Land Rover retail **volumes of 96.8k units, up 0.8%** - Range Rover, Range Rover Sport and Discovery up, as well as Discovery Sport up on the discontinued Freelander
-
- Jaguar retail **volumes of 18.1k, down (7.4)%** - XF and XJ down ahead of all new XF and refreshed XJ, on sale in Q2 FY16. Also discontinued XK. Partially offset by retail sales of the XE since May.
-
- **EBITDA of £821m (16.4% margin), down £266m** from very strong Q1 FY1 15 [EBITDA of £1,087m (20.3% margin)] primarily reflecting:
 - Lower wholesale volumes and less favourable market mix due to lower China sales
 - Less favourable model mix
 - Offset partially by receipt of £62m local market incentive
-
- **PBT of £638m, down £286m** reflecting:
 - **Lower EBITDA**
 - **Higher** depreciation and amortisation
 - **Favourable** revaluation of foreign currency debt and mark to market of **unrealised hedges not eligible** for hedge accounting under **IAS 39**
-
- **PAT of £492m, down £201m** reflecting an **effective tax rate** of **22.9%**

Market Focus

China

Market Challenges

As previously indicated, economic conditions in China has become more mixed and we have expected a certain “normalization” of the automotive market, which gathered pace in the last Quarter with the industry down (3.4)% year on year in June. JLR sales were down more than the industry as a whole due to a number of factors including:

- Slower sales ramp up of new Evoque produced in the China JV combined with start-up of the new integrated Marketing Sales and Service organisation
- Run out of the Freelander and launch of the new Discovery Sport, with the latter’s import volume carefully managed to ensure a smooth transition to it being produced in China toward the end of 2015.
- Run out of XF and the XJ in advance of the all new XF and 16MY XJ coming soon, while XE sales only start in September

Response

JLR has been discussing these issues with our dealer and JV partners and the following actions are being taken:

- Production and sales targets have been re-aligned to reflect the slowing market and JLR model transition issues to ensure supply and demand are kept in balance
- 5-6% average price re-alignment on JV Evoque and realigned pricing for the launch of the new Jaguar XE
- Changes in the Integrated Marketing, Sales and Service organisation, including new experienced senior management
- Shorter payment terms for marketing payments to dealers

Outlook

JLR Believes China will continue to be a growing market for premium vehicles and JLR – it is the largest car market in the world with a growing GDP and increasingly affluent consumers who will aspire to own premium vehicles

- JLR expects to increase it’s share in the market with new JLR model launches including the XE, all new XF, 16MY XJ, the New F-PACE and more products to come.

Other Market focus

Strong performance over the quarter

JLR sales excluding China were up 12.5% compared to Q1 FY15, with strong growth in Europe, UK and North America, reflecting strong Range Rover and Range Rover Sport sales and ramp up of the Discovery Sport and Jaguar XE.

Europe

- JLR sales were up 27.7%, outperforming industry growth of 7.5%. Notably the key markets of France, Germany, Italy and Spain all reported strong growth, up 46.8%, 25.7%, 29.2% and 45.7% respectively. As well as strong performance of the Range Rover (+17.2%) and Range Rover Sport (+7.4%) this quarter saw the introduction of the Discovery Sport and Jaguar XE, contributing 5,078 and 1,405 units respectively.

UK

- JLR delivered 20.5% growth, beating market growth of 12.9%, with Range Rover up 35.9% the Range Rover Sport up 27.3%, and the Discovery Sport and Jaguar XE posting 4,381 and 1,415 retail sales respectively.

North America

- For North America, JLR sales were up 12.9% with US up 12.7% against the market (+3.4%). As well as strong sales of the Range Rover (+39.9%) the quarter also saw very strong sales of the Discovery (+143.4%). The Discovery Sport sold 996 units in the quarter. The Jaguar XE is expected to do well when it is introduced in the market with petrol engines in 2016.

Other Markets

- All Other Markets were down 9.8%, primarily reflecting weaker Russia sales (down 50.8%) given well documented issues but, on a positive note MENA sales picked up 17% and South Korea posted strong performance in a challenging environment (up 45.2%).

Looking Ahead

Solid profitability in Q1 FY16, despite weaker China market

Jaguar Land Rover remains focused on:

- Building on the successful launches of the new Discovery Sport and the new Jaguar XE
- Launching the all new Jaguar XF and Range Rover Evoque in Q2 FY16, the 16 Model Year Jaguar XJ in Autumn this year and the Jaguar F-PACE and Evoque Convertible in Q4 FY16
- These new products are expected to drive significant volume growth in 2015/16 although, as previously indicated, EBITDA margins are expected to be lower than the high levels in 2014/15 reflecting model mix and launch costs associated with the new products, launch and reporting effects of the China JV and more mixed economic conditions particularly in China
- JLR plans to continue to execute its successful growth strategy, investing in more new products, powertrains, technologies and manufacturing capacity in the UK and overseas which is expected to continue to deliver profitable growth.
- Generating strong operating cash flow to support our continuing investment in the Business estimated at £3.5bn or more in FY16
